

Operating Practice & Procedures

Our client:

A Global Food and Support Services Company operating in more than 50 countries

Their Gap:

To engage country management teams in the implementation of a Standard Operating Platform to ensure the consistent management and delivery of new services.

Who we supported:

The Director of Group Support Services.
The Head of Service Development & Standardisation
In-country Executives.

How we supported:

We designed a global learning programme that radically transformed the end users understanding and buy-in to the new ways of working.
